your peers and return home with valuable "take aways" that will make you a stronger, more knowledgeable manager.

*"The College of Call Center Excellence course not only walked me through all of the important aspects of managing a call center, it provided me with an excellent tool box of real time best practices from the industry that I could take back and use. I was also given a great opportunity to network with other call center managers from my area, which has turned out to be a valuable resource for me and my company. Our instructor was very knowledgeable, professional and brought a lot of experience to the class."*
